The A+ Education Conference:

Supporting the Professional Development of Minnesota Educators

St. Paul, Minnesota, May 31, 2017 — GTS Educational Events is proud to present the 2017 A+ Education Conference at the Saint Paul RiverCentre on August 10. This conference grows the work of the Minnesota Department of Education's Minnesota Assessment Conference, with expanded programming and a broader focus.

"We want to promote a holistic and comprehensive approach to assessment," said Mary Wynne, Executive Director at GTS Educational Events. "We want education leaders to see the big picture and focus on practical application strategies."

The A+ Education conference features national and internationally recognized keynote and endnote speakers, Tom Hierck and Angie Freese, more than 30 breakout sessions with a variety of topics and formats, networking opportunities, exhibits from sponsors and vendors and prizes for schools and classrooms.

Anyone involved in educating K-12 students in Minnesota's public school system is encouraged to attend. The conference will provide timely and relevant information for classroom teachers, curriculum assessment and technology coordinators, counselors, administrators and leaders, and other stakeholders within the state's K-12 education community. Registration is available online at <http://www.mngts.org/APlus/>.

About GTS Educational Events:

GTS Educational Events is a nonprofit organization dedicated to helping those in the public and civic sectors meet their needs for continuing education and professional development, through full service planning and management of conferences, workshops, training programs and special initiatives.
